

Dear Community Member:

Have you seen your P.G.&E. bill lately? Have you heard about the possibility of rolling blackouts this summer? What are County leaders doing to help?

In my State of the County speech on January 31st, I announced the formation of an Energy Task Force. I believe that it is important for elected officials to make informed and intelligent decisions. The Energy Task Force will to examine energy problems and recommend solutions to the Board of Supervisors.

I want to hear from you on this issue. What ideas do you have on energy conservation? What information would be useful to you as you prepare for potential power outages this coming summer?

As our community faces the power crisis, I believe that public input is very important.

Please feel free to contact me at 408/298-8460 or by e-mail at james.beall@bos.co.santa-clara.ca.us I look forward to hearing from you.

Sincerely,

James T. Beall, Jr.
Supervisor, District 4
