Dear Prospective Applicant:

The Traffic Safe Communities (TSC) Network in Santa Clara County is pleased to announce the availability of mini-grant funding for 1999. The intent of the mini-grants is to offer project funding to organizations that identify traffic safety solutions, specifically targeting strategies proven to decrease the rate of unintentional traffic crashes and injuries.

We invite your organization to submit a proposal for the mini-grant funds or to share this information with any interested organization or community group. It is only through local city and community involvement that we can begin to address local and county-wide traffic safety problems.

Attached is additional information regarding applicant eligibility, content areas, and application time line. **The submission deadline is November 16, 1998.** Any questions regarding the application can be addressed to TSC staff at (408) 885-2204 or (408) 885-2207.

Thank you for your time and commitment to these efforts. We look forward to your involvement with the Traffic Safe Communities Network in Santa Clara County.

Sincerely,

James T. Beall, Jr.
